If you don't recognize the name, you surely know the sound. Larry is a veteran sax man that has performed and recorded with some of the industry's elite entertainers. Larry is very proud to have been featured with legends such as Little Richard, B.B. King, The Gap Band, Ike and Tina Turner, The Tonight Show Band, Motown Records, A&M Records, Quincy Jones Productions, etc., etc.

When performing with his full band, Larry is always accompanied by a few of his close friends and contemporaries, (many of whom are Grammy Award winners and solo artists). Larry's West Coast appearances have included the Perris Lake Jazz Festival, the Playboy Jazz Festival in Pasadena, Universal Studio, The Grove in Los Angeles, The Baked Potato in Hollywood, and Roscoe's Chicken and Waffles (The Cotton Club) in Long Beach. Recently he was featured on an episode of Dr. Phil's Reality Show. In addition to performing in large venues, Larry is equally proud and enthusiastic about performing in more intimate and private settings.

Larry has accumulated over 250 professionally arranged and studio recorded performance tracks. A few venues that have enjoyed these solo performances are Castaways Restaurant, Karma Bistro, The Crush Grape Wine and Bistro and Canyon Crest Winery. Without a doubt, Larry is an ambience creator who surely will make your private and intimate affair an evening to remember.

Larry performs original spicy arrangements to a repertoire that includes jazz standards, smooth jazz, R&B, pop, and Latin. Larry's sound is often described as smooth jazz with serious funk.
